

Common Fe II pair: conditional profile under fixed model and error assumptions

J232128-105122
 $z = 1.629$; 3 components, 5 lines

J004131-493611
 $z = 2.248$; 6 components, 3 lines

Other relative line shifts float. Contours at 1 and 3.84 are reference objective levels, not calibrated coverage.
